

STUDY CLOSE-OUT FOR INVESTIGATORS

CERT_NO (RANDCLIA)

1. Certification Number
2. Date -VIS-DT - - - - -

3. At the time the study started, did you think hydroxyurea would be effective in reducing the frequency of vaso-occlusive (painful) crisis in adults with sickle cell anemia?
I definitely thought it WOULD be effective (1)
I thought it MIGHT be effective. (2)
I really did not know what to expect. EFFECTIV (3)
I thought it might NOT be effective. (4)
I definitely thought it would NOT be effective. (5)

4. At the time the study started, did you think hydroxyurea would be generally safe for patients to use at the planned doses and durations?
I definitely thought it WOULD be safe. (1)
I thought it MIGHT be safe. (2)
I really did not know what to expect. SAFE (3)
I thought it might NOT be safe. (4)
I definitely thought it would NOT be safe. (5)

5. Did you notice any clinical, behavioral or other "clues" that may have contributed to your impression of what treatment patients might be taking? (Fill in)
RMK 1

6. Do you think your patients generally benefitted from being in the study: BENEFIT Yes (1) No (2)
Please explain: _____
RMK 2

7. Signature: CERT-SIG
